

# North Multi-manager Active Growth

## Investment objective

To provide moderate to high growth in your investment over the long term with larger fluctuations in value likely when compared to other active investment options (excluding High Growth).

## Investment strategy

To invest in a diversified mix of primarily growth assets. Growth assets will have a benchmark allocation of 85 per cent, with the balance in defensive assets such as cash and fixed interest. To invest using a range of complementary specialist investment managers.

## Investment process

North's multi-manager portfolios are managed by ipac asset management limited (ipac). One of Australia's largest operators of multi-manager portfolios, ipac manages around \$10 billion for clients.

ipac undertakes extensive research to develop and maintain a thorough understanding of each asset class. ipac then blends these asset classes and specialist managers to construct well diversified portfolios that aim to achieve the investment objectives of the portfolio.
